

BCHPA Education Committee – Lance Cuthill, Ian Farber, Axel Krause

Certified Instructor course sessions have not been held due to Covid.

Lance Cuthill has forwarded all his course files to Axel Krause. Axel is slowly working through the material to organize the files and to see what needs updating such as newer BCHPA logo and recent new information coming along from research and honey bee extension services.

Covid has also slowed down finding a replacement for Lance in his retirement from the committee. We hope that this can happen sometime this year in preparation of running a course again in Kamloops in March 2022 when all vaccinations are complete.

The committee also looks forward to meeting with Heather Higo at some point to hear her thoughts on future directions for the BCHPA course material.
